

NL320L

NHP NLINE Isolating Switch, Large IP 66 Plastic, 3 Pole 20A
500V AC

Component type	ETIM.Low-voltage industrial components. Switch disconnecter (EC000216)
Range	NLINE Weatherproof Isolators
Model	N/A
Product status	Existing

NHP's NLINE weatherproof isolating switches are available in three current ratings and feature a large isolator handle for easy operation. A special gasket, together with stainless steel cover screws increases ingress protection. The body is made of UV-resistant polycarbonate to offer extended life in outdoor applications. All switches are tested and approved to AS/NZS3133, have an M-rating and come with a certificate of approval.

ELECTRICAL

Rated operating voltage Ue (EF002418)	500
Rated permanent current Iu (EF001389)	20
Number of poles (EF001391)	3
Motor rating (NF000279)	M120
Rated operating voltage (EF001435)	500

CONSTRUCTION

Material housing (EF001596)	Plastic
Colour control element (EF007167)	Grey
Degree of protection (IP), front side (EF003118)	IP66
Version as reversing switch (EF009408)	No
Suitable for floor mounting (EF007243)	No

DIMENSIONS

Height (EF000040)	165.0
Width (EF000008)	95.0
Depth (EF000049)	91.0
Conductor cross section solid (solid, stranded) (EF003462)	2.5-16
