

NEW PRODUCT RELEASE

Wired Remote Controller

Fujitsu General offers the latest solution to air conditioning control with the new Kagami wall controller. The award-winning mirrored design of the Kagami controller blends seamlessly into any room's décor.

An intuitive touch screen design and LED lights to display the operation mode at a glance, Kagami gives the user complete control of their comfort.

UTY-RVRY

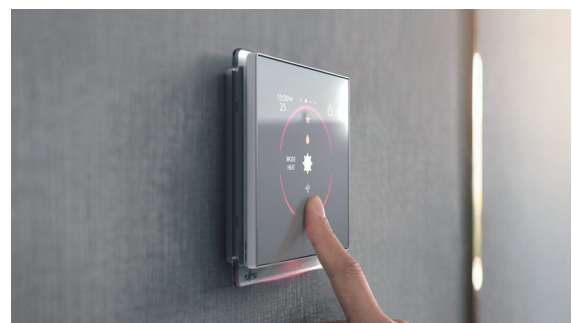

Harmonises with the Installation Space

The mirrored glass design of Kagami allows the controller to blend seamlessly into any room's décor. The sleek and stylish design won the 2022 Good Design Award¹ and was selected as a finalist for the 2023 IDEA Award².

Intuitive Operation

The intuitive touch screen can be operated by swiping vertically and horizontally, allowing complete control of the users comfort.

Status LED Colours

The operation mode is indicated through LED lamp colours shown under the controller. The LED lamp can be switched ON and OFF to avoid glare at night.

Blue: Cooling

Red: Heating

Green: Dry

Purple: Auto

Easy Controller Set-Up

The initial controller settings and indoor unit's functions can be sent from a smartphone by pairing the controller via Bluetooth, reducing installation time. If installing multiple controllers, you can read settings from one controller and clone them to another controller. The Airstage Remo Set App allows the installer to input contact information for easy access to the company servicing the device.

Bluetooth

Smartphone

Wired remote controller

Refrigerant Cycle Monitor

The controller will display specific sensor values of outdoor and indoor units for maintenance and service support³.

Display screen example

Wired remote controller

Logo Display

The controller can display hotel logos when not in use. Images are sent via Bluetooth connection where data is saved in the flash memory built into each controller.

Limited Visibility of Settings

The controller can disable the display of specific settings on the screen so that guests cannot change system settings.

Fujitsu General Assist

TECHNICAL SUPPORT

Fujitsu General Assist deploys Fujitsu trained technicians in Sydney, Melbourne, Brisbane, Adelaide and Perth and provides access to dedicated Service Agents in all other parts of Australia. These technicians are well equipped with the necessary tools and spare parts to enable them to resolve issues onsite, promptly, offering customers a high first time fix rate and seamless experience.

EXCEPTIONAL AFTER SALES SERVICE

Fujitsu General trained technicians attend every commercial VRF installation to assist with the controls commissioning of the VRF units to ensure seamless operation.

PEACE OF MIND

Fujitsu believe in the quality and reliability of every air conditioner we sell, providing a 3 years warranty for commercial applications and 5 years warranty for domestic applications.
