

PREMIUM BLACK PAIR COIL RANGE

TRIPLE LAYER INSULATION

OUTER LAYER

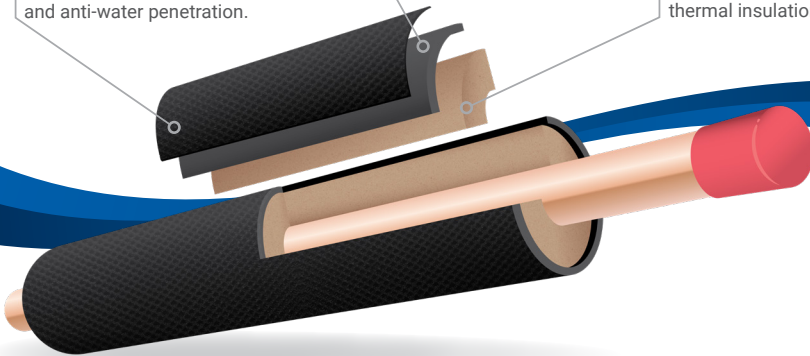

Embossed anti UV-resistant film, anti-aging, anti-deterioration, anti-cracking and anti-water penetration.

MIDDLE LAYER

Polyethylene foam, dense cell, heat and cold-resistant and wear-resistant.

INNER LAYER

Cross-linked PE foam with closed cell structure, providing air tightness and superior thermal insulation.

Ease of installation

**Anti-aging
& UV resistant**

Product longevity

DEMAND THE BEST.

ONLY INSTALL BIG MAN PREMIUM BLACK PAIR COIL.

PREMIUM BLACK PAIR COIL

TRIED, TESTED & TRUSTED

The Big Man Premium Black Pair Coil range is a superior product that has been designed and engineered purposely for the installer.

Tried and tested to not only provide a seamless installation process, but to also combat the harsh weather conditions in Australia.

TRUST THE BIG MAN PREMIUM BLACK PAIR COIL RANGE FOR:

1. EASE OF INSTALLATION

- Embossed outer layer that has inverted texture rather than a raised texture to ensure minimal, if any, ripping or tearing when installing.
- Easy to install - a flexible product that can be easily separated at the indoor and outdoor connections.

2. ANTI-AGING AND UV RESISTANT

- Effectively maintains its insulating properties.
- Resistant to high temperatures – up to 120 degrees.

3. PRODUCT LONGEVITY

- The material of the embossed outer layer will increase the longevity of the product through limited scratching, deforming and aging.
- Waterproof and shockproof properties including closed-cell structure, as well as being light weight and flexible.
